1. Introduction Tools 4 ISP Statistics Module

First of all, thank you for purchasing our Tools 4 ISP Statistics Module. In addition to the regular WHMCS statistics, this module allows you to view and generate other useful statistics per date.

1.1 Functions Tools 4 ISP Statistics Module

With this module you can view multiple statistics like:

- Clients by group
- Income by group
- Transactions by group
- Visual statistics
- Download invoices per date function.

If used our Multisite module you can also view statistics per brand:

- Clients by brand
- Groups by brand
- Sites by brand
- Income by brand
- Transactions by brand
- Visual statistics

1.2 System requirements

System requirements:

- PHP 7.1+
- PHP MySQLi
- MySQL (5+)
- Ioncube loader (current version)
- WHMCS installation (> version 7.4 - up to and including version 8.2.1)
- For Mutisite statistics: Tools 4 ISP WHMCS Multisite Module

This module is fully tested with WHMCS v8.2.1 and PHP v7.2.4 (from Debian, with Zend OPcache). The modules might work with other versions, however we can't really support it in dept and we can't.

2. Installation Tools 4 ISP Statistics Module

Before you install the Tools 4 ISP Statistics Module (or any other module) always make a full backup and read carefully the user guide and release notes.

2.1 Upload the Tools 4 Statistics Module

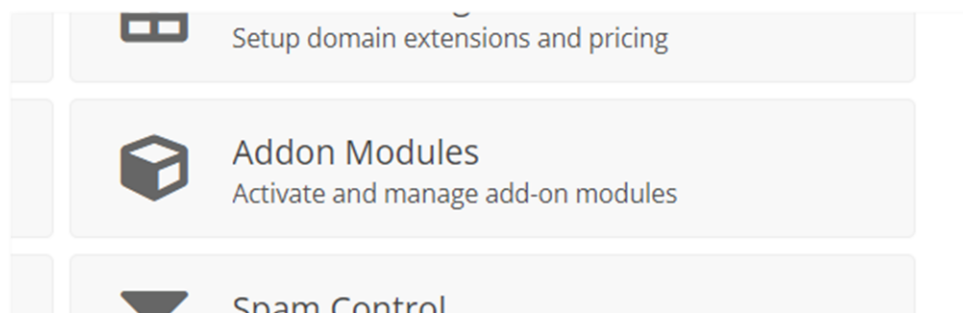

Extract the Tools 4 ISP Statistics Module you can download from your my.tools4isp.com area.

Upload the extracted files in your WHMCS installation in:
<WHMCS root>/modules/addons/statistics

If files exists, choose overwrite files.

2.2 Enable/Activate the Tools 4 ISP Statistics Module

To enable the statistics module, login to your admin area and click on the wrench icon (top right) and choose "System settings". Find in the next page the section "Addon Modules":

Next you'll see a list of addon modules.

Find the **Tools 4 ISP Statistics Module** and click on the button "Activate".

3. Update the Tools 4 ISP Statistics Module

When updating the Tools 4 ISP Statistics Module (or WHMCS), always read carefully the user guide and the release notes. The updated files will be overwritten (your current settings will not be overwritten).

3.1 Update WHMCS

When you updating WHMCS, always first update WHMCS, then update the Tools 4 ISP Statistics Module

Before updating WHMCS always check whether the Tools 4 ISP statistics Module is compatible with the version of WHMCS. Preferably switch off the automatic updating option of WHMCS.

4. Using the Tools 4 ISP Statistics Module

Click on the tab “Addons” > “Statistics”, then in the left menu on the statistics of your choice.

Use the filter to get specific details of the results:

Income by group

Filter options:

- Only show invoices with this status: ▾
- Only show select invoices based on the following date type: ▾
- The selected date type is on or after:
- The selected date type is on or before:

5. Product development

Our goal is to deliver the best possible product. So help us to improve this product. Did you find a bug, or you've a feature request or other comment regarding this product, please feel free to contact us and let us know: info@tools4isp.com
